1. Customer will set up a prepaid account with the City of Golden Public Works Department located at...

1445 10th St.
Golden Colorado 80401
303-384-8151

building@cityofgolden.net

- A. A four-digit account / access number will be assigned by the City of Golden. The customer will choose a four-digit pin number.
 - B. A truck id number will be provided by the customer
 - C. The customer will provide the license number of the truck hauling water.
 - D. The customer will prepay for the quantity of water needed at a rate of \$6.26 per 1000 gallons (2017 bulk water rate)
 - E. The customer will be given a receipt, map, and operating instructions for the station.
2. At the station, the customer will.
 - A. Connect their truck to the station. A standard 2.5-Inch hydrant nozzle is attached to the station. It will be the customer's responsibility to adapt to this fitting.
 - B. Open the small door located on the street side of the station.
 - C. Enter their four-digit account / access # on the touchpad and press enter.
 - D. Enter their four-digit pin # on the touchpad and press enter.
 - E. The screen on the touchpad will then display the total number of gallons available to the customer. Press start.
 - F. The customer will be requested to enter the total number of gallons they desire for the current transaction. After the desired amount is entered, Press enter.
 - G. The customer will be asked to ensure that connections are secure.
 - H. Press start to begin dispensing water. The flow of water will begin slowly, increase to approximately 250 gpm and then slow down as the total requested is approached.
 - I. On small transactions the station will tend to dispense less than requested due to the time required to open and close the valves. The amount of water actually dispensed is the quantity that will be billed.
 - J. When the flow of water has stopped, close and latch the door on the touchpad unhook and drain hose, put hose on truck.
 3. If the station malfunctions please contact 303-384-8158 and a Utility Division employee will respond as needed.
