Permits are required for parking during the school year, (as directed by signs), Monday through Friday. New permits are issued annually.

Permit parking restrictions are strictly enforced. Fines for illegal parking begin at $30.

PERMIT PARKING AREAS
Areas where city permits are required are shown in red on the accompanying map. In general, residential streets north and south of the campus are restricted. In addition, several other streets near the campus are restricted (e.g., the 1200 block of 17th Street and the 700 and 800 blocks of 15th Street).

Several residential streets north of the campus can be utilized either all day with a permit or for 2 hours without one (green areas on the map). Parking restrictions are indicated by the placement of signs at the beginning of a controlled block. These signs specify whether a permit is required or whether 2 hour parking is permitted without a permit. Parking permits are issued by the city to property owners within the permit area. Property owners also receive permits for any renters.

Contact the City of Golden for further information.

Additional Parking Information:

It is illegal to park (1) within 20 feet of a crosswalk at an intersection, (2) within 30 feet of a traffic control device (stop sign), or (3) on a crosswalk. These violations will also be enforced.

Off-campus parking at CSM is controlled by the City of Golden just as on-campus parking is controlled by CSM. In both cases, a valid parking permit is required to be attached to the vehicle. Off-campus parking permits are issued by the City of Golden and these parking permits are available only to property owners and renters who reside within the permit area. City permits are color-coded to define the area in which they are valid, i.e., near GHS, CSM or the Recreation Center area. Permits issued in one area are not valid in other areas. In addition, “Visitor Passes” issued to an address are only valid at that address.
Permit Areas subject to change without notice.
