On April 25, 2023, the Golden City Council passed Resolution 2949, which formally adopted the January 2022 update of the Golden Community Wildfire Protection Plan (CWPP). Included in this resolution was a clarification of wording, summarized as follows:

Section 2. CWPP Adopted. City Council hereby recognizes the CWPP updated as of January 2022, as a recommended best practice, is an advisory document, and adopts the CWPP as the City's official document to guide its overall approach to wildfire prevention; provided, however, that the CWPP shall be revised as follows: (1) The first sentence of paragraph 3 on page 43 shall read, "Standard treatment protocols recommend that grass and shrub fuels should be treated for a distance of 100 feet from the primary structure on the property or to the property line, whichever distance is less"; and (2) to reflect, as appropriate, the recommendations set forth in Appendix A of the CWPP. City Council directs staff to take all steps necessary to incorporate these revisions into the CWPP.

This document meets the direction of City Council and as of the date of the resolution, the January 2022 update of the CWPP is hereby amended.
