## UTILITY RATE

# CITIZEN COMMITTEE

As part of the rate study process, we convened a Utility Rate Citizen Committee (URCC) made up of volunteers from the community to help us evaluate proposed updates and changes to **how** you are charged for water, sewer and drainage services or the “rate structure.” The URCC had three goals:

To represent and communicate the views of the community

To provide input on rate structure options and associated customer impacts

To formulate a recommendation for Golden City Council

The URCC represents the diversity of the City’s customers including residents, the business community, environmental interests, large irrigators and commercial interests. Committee Members:

**DON CAMERON**

Planning Commission

**PETER LUPTOVIC**

Citizens Budget Advisory Committee

**TODD MARGULIES**

Golden Resident

**KAREN OXMAN**

Citizens Budget Advisory Committee

**TANJA RAUCH-WILLIAMS**

Sustainability Board

**ADAM SCHICHE**

Golden Resident

**STEVEN SMITH**

Golden Resident

The committee worked with City staff and our rate study consultants for more than 6 months to develop a fair, equitable rate structure that accurately reflects the demand our customers place on the system today. We will present our recommendations to City Council on September 12, 2019 for their approval. Please let us know what you think!
