

[illegible]

On Lid Ramp to Westbound US 6 – Advantages

- **Reduced delay for eastbound 19th Street traffic turning on to Westbound US 6 by about 15 seconds over the today' delay**
- **Reduces out of direction travel by about 1,250 feet**
- **Eliminates need to change lanes between US 6 and Elm**
- **Less expensive**

Tucked On Ramp to Westbound US 6 – Advantages

- **Removes pedestrian road crossing**
- **Improved US 6 Regional Trail crossing at 19th**
- **Reduced delay for vehicles heading up 19th from the US 6 Eastbound off ramp**
- **Removes increased delay for vehicles turning on to Westbound US 6 from the uphill lane of 19th**
- **Less roadway width for 19th on the lid**
- **Eliminates possibility that traffic signal will be needed on 19th. This signal if needed will back westbound 19th traffic about 400'**
