2019 Golden Tree Sale

**Norwegian Sunset Maple**  
*Acer truncatum x A. platanoides*

- Zones: 4-7
- Generally 30’ to 35’tall, 20’ to 25’ wide
- Upright or oval growth habit
- Yellow flowers in Spring
- Prefers full to partial sun
- Very tolerant to heat and drought, and is Japanese beetle resistant

**Sensation Boxelder Maple**  
*Acer negundo 'Sensation'*

- Zones: 4-6
- Grows to 30-40’ tall and 20-25’ spread
- Full sun
- Very attractive orange-red spring emerging and fall foliage
- Drought tolerant
- Great choice for harsh and difficult growing environments, very hardy selection

**Redbud**  
*Cercis canadensis*

- Zones 4-8
- Grows to 20-30’ tall and 25-35’ spread
- Partial sun, full sun
- Stunning pea-like rose-purple flowers which bloom profusely on bare branches in early spring
- Ideal for home landscapes where a smaller tree is desired
- Since this tree does not transplant well, it should be planted when young and left undisturbed.
Thornless Cockspur Hawthorne
*Crataegus crus-galli ‘inermis’*

- Zones 4-7
- Grows up to 15’ tall, 15’ wide
- Excellent small ornamental tree with showy white spring flowers
- Thorn-less variety, dark green, glossy foliage
- Hardy and drought tolerant selection

Kentucky Coffeetree
*Gymnocladus dioicus*

- Zones 3-7
- Very hardy shade tree, pest resistant
- Great for difficult planting sites
- Grows to 40-50” tall and 25-35’ spread
- Golden yellow fall color
- Best planted in full sun but will tolerate partial shaded areas
- Drought tolerant once established

Northern Catalpa
*Catalpa speciosa*

- Zone 4-8
- Grows to 40-60’ tall and 20-40’ spread
- Full sun/partial shade
- The flowers of the catalpa form after 7 years. They are visited by hummingbirds. It is the sole host of the catalpa sphinx moth. And it provides nutrition for bees in early summer.
- Yields long bean pods: Requires cleanup after the flower petals, leaves and seed pods drop
English Oak
*Quercus robur*
- Zones 4-8
- Long-living, broad spreading oak
- Large, slow-growing shade tree with a mature height and width of 50’-70’
- Tolerant of drought and a wide range of soil types
- Will often holds leaves into winter
- Golden-yellow fall color

Bur Oak
*Quercus macrocarpa*
- Zones 3-8
- Large: grows to 70-80’ tall and 80’ spread
- The bur oak is a mighty sight to behold. A coarsely textured crown, wild and wooly acorns and a massive trunk with rough and deeply furrowed bark combine to make one impressive tree.
- Full sun is best, drought tolerant
- Lives for more than 200–300 years
- Bur oak acorns are the preferred food for wood ducks, wild turkeys, white-tailed deer, rabbits, mice, squirrels and other rodents.

Spring Snow Crabapple
*Malus ‘spring snow’*
- Zone 3-7
- A dense, oval, upright ornamental landscape tree
- Fragrant, white flowers appear mid-spring
- Prefers partial to full sun location
- Yellow fall color
- Mature height 20’-25’
Chanticleer Pear
*Pyrus calleryana ‘Glensform’*

- Zone 5-9
- 25’ - 35’ height, 15’20’ spread
- Prefers full sun
- Upright, flowering ornamental tree
- Showy white flowers appear in early spring
- Spectacular reddish-purple to bronze-red fall color

China Snow Pekin lilac
*Syringa pekinensis ‘China Snow’*

- Zone 4-7
- 25’ height, 20’ spread
- Full sun to partial shade
- Upright, or rounded flowering ornamental tree
- Large, showy, fragrant white flower clusters appear in June
- Exfoliating bark extends seasonal interest into winter months
