Figure 1: Clear Creek Park District Concepts

- Potential location for new/relocated recreational activities
- Enhance the north/south connection to the park district from neighborhoods
- Redesign road as a pedestrian-friendly space that allows vehicles
- Consider relocating facilities to create multi-purpose community green
- Potential parking lot?
- Provide seating and viewing areas, and control streambank erosion. Mitigate conflicts between creek users and trail users.
- Identify and design appropriate kayak put-in / take-out areas
- Add kayak features downstream
- Enhance the north/south connection to the park district from neighborhoods
- Provide trail on both sides of Clear Creek
- Add kayak features downstream
- Explore potential future uses
- Explore options for creating an outdoor performance space and interactive splash water feature
- Enhance the north/south connection to the park district from neighborhoods
- Explore possibilities of trail connection to Coors
- Explore potential future uses
- Enhance the north/south connection to the park district from neighborhoods
- Provide trail connection between Parfet and Vanover Parks
- Provide seating and viewing areas, and control streambank erosion. Mitigate conflicts between creek users and trail users.
- New road and trail connection
- Seek opportunities to expand the park district into adjacent parcels. Integrate with redevelopment.
